

Voice of Senior Citizens:- A video message uploaded on social media on 15th January 2022

You will also be a senior citizen tomorrow

Namaste.

Senior Citizens presently constitute about 14% of the voting population.

We, would like to impress on the political parties to come out clearly in your manifesto about your plans for Elderly Issues & Care

in your areas, States & in the whole Country.

Amendment to Maintenance And Welfare Of Parents & Senior Citizens Act 2007 introduced in Parliament in August 2019 ! but did not find any priority by any political party.

We wonder why this insensitivity and how long this AGEISM? Where is that dignity to Elderly our culture boasted of?

Patience of Elderly is being stretched. Humble request is, therefore, to act before the same breaks.

Thank you & Jai Hind.
